WAKO RULES – EQUIPMENT

Article 1. Equipment and clothes

Only certified and approved equipment listed in the WAKO Equipment Book may be used at ALL WAKO competitions!

Explanation:

- WAKO has signed contracts with manufactories / sponsors. In the process of signing the contract, the WAKO Technical Committee received for inspection one sample of the equipment and all the necessary certificates, specifications and other documentations that are needed as proof that the equipment is safe for use in kickboxing fights.

- The WAKO Technical Committee approved the equipment and it was included in the WAKO Equipment Book (published on the WAKO Official web page – www.wako.sport), and all this equipment should be marked with the label "**WAKO Approved equipment**". The appropriate CE certification has been received for all safety equipment, ensuring the highest standards of compliance.

- All other equipment, from other manufacturers or distributors, that is not tested or certified (without the WAKO label), MAY NOT BE USED in WAKO competitions (competitions at all levels - local, national, international, regional, continental and world). In the event of unwanted incidents, the use of unapproved and uncertified equipment will be considered a serious violation of WAKO rules and accepted regulations and decisions. WAKO assumes no responsibility for injuries sustained by athletes using uncertified equipment. Also, an injured athlete who used unapproved equipment has no right to claim compensation from insurance companies.

- Also, WAKO will not bear responsibility and financial sanctions from contractual sponsors due to the use of unverified and unapproved equipment from other manufacturers at any kickboxing tournament and will hold the organizer / national federation responsible for the forfeiture of the contracted sanctions due to non-compliance with contractual obligations.

Obligations of National Federations and Organizers:

- It is the responsibility of the National federation as well as their executive committee and event organizer of the competition to ensure the use of only approved and verified equipment.

Obligations of referees and judges:

- It is the duty of the WAKO judges and referees to check the equipment, which must be correct and approved and verified, before the start of the match.
- WAKO referees and judges may not serve in competitions and fights in which approved and verified equipment is not used

Verified manufacturers

- WAKO has concluded contracts and performed a detailed check of the equipment and documentation of the equipment of the two manufacturers/distributors as Platinum sponsors and several manufacturers/distributors as Gold sponsors:

Right of National Federations / Competition Organizers:

- Each national federation and/or competition organizer has the right to sign a contract with one or more of the manufacturers of protective equipment. For enhanced cooperation if both parties are interested.
- WAKO has signed exclusive contracts with Platinum sponsors, which means that only their verified equipment can be used at the WAKO World and Continental Championships, but due to such exclusive status of the manufacturer, WAKO must provide verified equipment for use.
- In the same way, the National Federation and/or the organizer of a national or international competition can sign an exclusive contract with one or more manufacturers under conditions agreed with the manufacturer, but in this case, it must only be part of the approved panel.
- Any National Federation may propose that WAKO enter into contracts with other manufacturers and/or sponsors. To begin cooperation with WAKO, the manufacturer of protective equipment must contact the WAKO Administration to conclude a gold sponsorship contract. Their equipment must be checked, certified, and approved by the WAKO Technical Committee, and after signing the contract, it will be included in the WAKO Equipment Book, and the manufacturer / sponsor will be given access to all WAKO competitions (except the World and Continental Championships).

Article 1.1. Inclusion and approval of new producer / supplier and equipment

Article 1.1.1. Purpose and Regulatory Basis

- The purpose of the WAKO equipment approval and labelling system is to ensure athlete safety, regulatory consistency, fair competition, and the application of uniform technical standards throughout WAKO competitions worldwide. The system serves as a technical and regulatory mechanism to verify that equipment and competition clothing used in WAKO events comply with established safety and performance requirements.
- As the international federation responsible for the governance, technical regulation and safe conduct of kickboxing competitions, WAKO is entitled and required to establish minimum technical and safety standards for equipment used in competition. National federations affiliated to WAKO are expected to implement these standards so that athletes compete under consistent, safe and recognizable rules.
- The approval and labelling system is based on transparent, objective, non-discriminatory and proportionate technical and safety criteria. Its purpose is athlete protection, competitive equality, field-of-play control, and the prevention of unapproved or low-standard equipment entering the market.

Article 1.1.2. Sponsorship Structure

- WAKO has signed contracts with two PLATINUM Sponsors and several GOLD Sponsors. The status, rights and obligations of each manufacturer/distributor as a sponsor are regulated by contract.
- Every four (4) years, WAKO announces a tender to collect sponsorship offers from manufacturers and distributors of protective equipment and competition clothing.
- Manufacturers and distributors wishing to become recognized WAKO suppliers should submit an offer or letter of intent to the WAKO Headquarters expressing their interest in becoming a WAKO GOLD Sponsor (GOLD WAKO Supplier).
- WAKO promotes the opportunity for all qualified manufacturers and distributors to become recognized suppliers through the applicable approval process.

Article 1.1.3. Approval of Manufacturers and Equipment

- The manufacturer/distributor concludes a contract with WAKO, normally for a period of four (4) years, which includes the applicable annual fee and contractual obligations.
- Approval of equipment is based on objective technical and safety criteria. Sponsorship status does not replace or bypass the technical approval process.
- Following contract signature, the manufacturer/distributor submits one sample of each equipment model intended for approval to the WAKO Technical Committee through the Technical Director.
- The contract shall contain a detailed list, including photographs, names and model numbers, of all equipment proposed for approval.

Article 1.1.4. Documentation Requirements

For each equipment model submitted, the manufacturer/distributor shall provide:

- A CE Certificate or other certificate demonstrating compliance with applicable continental, regional or national product-safety legislation;
- Basic equipment specifications, including dimensions, weight and principal material characteristics;
- Documentation confirming that the materials used are safe and non-toxic;
- Documentation demonstrating compliance with WAKO technical specifications and competition rules;
- Any other documents necessary to verify the safety, quality and suitability of the equipment for its intended purpose.

Article 1.1.5. Technical Review and Approval

- The Technical Director shall inspect the submitted equipment and documentation.
- The Technical Director shall consult with the members of the WAKO Technical Committee regarding the submitted equipment.
- Following successful review, the Technical Director, on behalf of WAKO, may approve the equipment for use in WAKO competitions.
- Only equipment that has successfully completed the full verification and approval process shall be considered WAKO Approved Equipment.

The approval process includes:

- Submission of physical samples;
- Review of all required documentation;
- Verification of compliance with WAKO specifications and rules;
- Assessment of safety, quality and intended function.

Following approval, WAKO may confirm that the equipment, when used correctly and for its intended purpose, satisfies WAKO safety and technical requirements.

Article 1.1.6. WAKO Labels

- Approved manufacturers are required to purchase official WAKO Labels from WAKO in accordance with the quantities, prices and conditions established by agreement.
- The WAKO Label must be permanently affixed in a visible location as prescribed by the applicable labelling procedure.
- The WAKO Label serves as the official method of identifying approved equipment and competition clothing and enables referees, event organizers and athletes to verify compliance efficiently.

- The WAKO Labels procedure is an implementation and administrative document supporting the binding technical and competition rules. It does not replace the rules but provides the practical mechanism for identification and control of approved equipment.

Article 1.1.7. Inclusion in the WAKO Equipment Book

- Following approval, the equipment shall be included in the official WAKO Equipment Book together with photographs and relevant technical information.
- WAKO Administration and the Technical Director shall maintain ongoing communication with approved manufacturers and distributors.
- The currently valid WAKO Equipment Book is published on the official WAKO website.
- For the inclusion and approval of new equipment models, manufacturers and distributors must follow the procedure described in Sections 3 onward.

Article 1.1.8. Market Use and Competition Eligibility

- Only equipment that has successfully completed the WAKO approval process and bears the official WAKO Label may be marketed as WAKO Approved Equipment.
- Approved manufacturers and distributors may supply such equipment to individuals, clubs, national federations and continental federations worldwide.
- Approved equipment may be used in WAKO competitions worldwide, subject to the specific requirements applicable to particular events.

Article 1.1.9. Personal safety equipment at World and Continental Championships

- At World Championships and Continental Championships, only equipment supplied by the official PLATINUM Sponsors may be used during competition.
- In accordance with contractual obligations, PLATINUM Sponsors shall provide the organizer with the agreed quantity of equipment.
- The organizer shall make such equipment available to competitors for use during competition where required.

Article 1.1.10. Implementation and Compliance

- National federations are expected to implement WAKO equipment and clothing standards in good faith and in accordance with WAKO competition rules.
- Enforcement measures relating to equipment compliance shall be fair, proportionate, predictable and linked to legitimate sporting and safety objectives.
- Any warning, correction opportunity, refusal to compete, penalty, disqualification or disciplinary consequence shall be grounded in the applicable WAKO rules and applied by authorized officials.
- Transitional implementation measures may be considered where appropriate, provided they are time-limited, applied consistently, do not compromise athlete safety, and remain aligned with WAKO technical requirements.

Article 1.1.11. Principle of non-exclusivity

- The WAKO equipment approval and labelling system is not intended to create an exclusive supplier arrangement.
- No single supplier, distributor, sponsor or commercial partner shall be regarded as the exclusive or mandatory supplier for national competitions.
- Athletes, clubs and federations may obtain compliant equipment from any WAKO-approved manufacturer or distributor.

- The approval system exists to ensure compliance with WAKO technical and safety standards and to prevent the circulation of unapproved or substandard equipment, rather than to restrict market access.

Equipment approved by WAKO for use must have undergone the full verification and approval procedure. The Technical committee received samples of the equipment, the equipment was inspected, all the necessary documentation was submitted for the equipment (CE certificates, certificates that the paint is non-toxic, that the equipment complies with WAKO specifications and rules and that the equipment serves its purpose) and after WAKO approved the use of such equipment, WAKO can guarantee to every user who uses it in a proper way that he will be protected from injuries.

Article 1.2. WAKO labels for approved equipment and clothes

At all WAKO competitions (at all levels - local, national, regional, continental and world), only the WAKO Approved safety equipment is permitted at all WAKO International and National events.
It is the responsibility of the National Federations and the referees and all officials to ensure this is strictly adhered to. Failure to comply will result in associate fines and penalties.

The WAKO label is impregnated in UVF and is forgery resistant. Going forward it must be integrated in all production of kickboxing clothing and safety equipment produced by each approved WAKO supplier.

T**he use of this WAKO labelled clothing and safety equipment is mandatory by rules at all WAKO events globally in the following sequence**

- Producers of safety equipment must get their products approved by WAKO.
- Safeties to be used in in all WAKO tournaments must be approved at least 3 months before the tournaments and all members must be duly informed.
- Only WAKO Approved manufacturers' equipment / safeties with WAKO label may be worn or used at WAKO World / Continental Championships (only Platinum sponsors' equipment) and on all other international A/B/C class events.
- Safety equipment must be in accordance with international safety, protection and medical standards and directives for personal safety equipment
- Approved personal protective equipment, images, descriptions, characteristics, technical specifications as well as approval and other procedures are published in the **WAKO Equipment Book**. The WAKO Equipment Book is published on the official WAKO website - https://www.wako.sport/rules-overview and is an integral part of these rules.

Article 1.3.1. Head guard

- Head guard is mandatory in all kickboxing fights in all disciplines except in musical forms.
- Head guard must be made from foam rubber or soft plastics or from compact sponge covered by leather.
- In fights, head guard which covers the face and head protection which reduces the field of vision is not allowed.
- The part of the headguard that covers the top of the head must be made of the same material and at least the same thickness as the other parts of the headguard. It is not permitted for the part that covers the top of the head to be made of leather or other material straps only or to be tied with laces.
- The head guard must be of a suitable size to prevent it from being removed or turning during the fight
- Head guard must cover the top of forehead, top of head, temples, the upper part of jawbone, ears and back of head.
- Head guard must not obstruct the kickboxer's hearing.
- Parts for fixing the head protection must not include metal or plastic buckles.
- Velcro for adjusting is allowed under chin and on back of head.

Article 1.3.2. Face mask

- In the categories of children and younger cadets face protection is mandatory for point fighting at all official WAKO championships, cups and tournaments.
- The face mask must be suitable size to head guard.
- The face mask is fixed to head guard with self-adhesive Velcro.

Article 1.3.3. Teeth protection

- Mouth-guards must be made from soft and pliable rubber-plastic or silicone material.
- Protection on only the upper teeth or on both upper and lower teeth is allowed .
- Mouth-guard must enable free breathing and must be adapted to the competitor's mouth configuration and must not protrude outside the mouth in any way.
- Mouth-guards can be of any colour.
- It is not allowed to use a mouth-guard over tooth correction apparatus (braces, retainers) unless a dentist's certificate allows that.

- If the kickboxer has braces on lower teeth or on both upper and lower teeth they must have a mouth-guard on both upper and lower teeth
- Using tooth protection is mandatory for all fighting disciplines, in all age categories.

Article 1.3.4. Gloves

- In every kickboxing discipline, it is mandatory to use approved gloves.
- Two types of protective gloves are used at kickboxing competitions:
  - **point fighting gloves** (open palm)
  - **kickboxing gloves** in disciplines: light contact, kick light, full contact, low kick and K1 Style

Point fighting gloves

- In point fighting it is mandatory to use gloves with an open palm or open hand and with full coverage of the first half of the fingers, including the thumb. The gloves make it possible to open and close the hand.
- Gloves must cover the hitting area on the front and upper side of the fist and the edge of the palm and must cover a minimum of 5 cm above wrist.
- Gloves must be made from soft and compact synthetic foam rubber material covered with genuine or artificial leather.
- Gloves must be fixed on kickboxer's hand by self-adhesive and adjustable strip over the wrist. Metal or plastic buckles or stripes are not allowed for fixing gloves. Also, any kind of self-adhesive tape is not allowed, except self-adhesive tape made on a cotton base, and this tape can be used only to fix gloves at the wrist.
- The total weight of the glove must be 8 Oz (226 grams).
- The thumb MUST be fully attached and fixed to the main body of the glove. If the glove attachment is cut or broken the gloves cannot be used.

Glove Slipping

- Glove slipping is against the rules and results in a warning. If a kickboxer's gloves come off whilst scoring a hand technique, no score will be given, and a warning for slipping the glove will follow (if the glove is pulled off by the opponent, the score remains and no warning is given).

Kickboxing gloves

- Gloves are produced from special foam rubber, synthetic, compact and soft material which is covered with genuine or artificial leather. Covered material must be less than half and foam material more than gloves weight.
- Gloves must make it possible for the kickboxer to completely clench his fist and keep his thumb in contact with other fingers.
- Gloves completely cover the kickboxer's fist with separate parts for fingers and thumb. The thumb is connected by a small strong strip to the rest of the glove. This strip keeps the thumb together with the fist to avoid separation of the thumb during punching and injuries to the kickboxer's thumb or to the other kickboxer. If the glove attachment is cut or broken the gloves cannot be used.
- The interior part of the gloves covers the bottom part of fingers and palm only with leather and covers a minimum of 5 cm of the wrist.
- Gloves will be fastened by self-adhesive strips at the kickboxer's wrist and the use of self-adhesive cotton-base tape is allowed (plastic or other types of self-adhesive tape are not allowed). Fastening gloves with strips or any kind of buckles is not allowed.
- Inner foam rubber material must cover the front and upper part of the fist, edge of palm and upper and front part of thumb.

- Kickboxing gloves which are used in official WAKO competitions must weigh 10 Oz (283 grams) weight and the weight must be clearly marked.
- Kickboxing gloves must be in good repair, without any cracks.
- Fastening must be with a self-adhesive strip and gloves must be secured at the wrist.
- Gloves with fastening laces are not allowed.
- The thumb MUST be fully attached to the main body of the glove. If the glove attachment is cut or broken the gloves cannot be used.

Article 1.3.5. Hand and foot wraps (bandages)

- **Hand wraps** are used for wrapping the fist to avoid injuries, not to add force to a strike.
- Using hand wraps is mandatory with kickboxing gloves.
- Hand wraps are 2.5 up to 5 m long and 5 cm wide cotton strips without sharp edges. Can be elastic.
- Hand wraps will be fastened on the upper part of kickboxer's wrists with self-adhesive cotton-base strips; maximum length 15 cm and wide 2 cm.

- **Foot wraps** are used for wrapping the foot to avoid injuries, not to add force to a strike.
- Using foot wraps is optional in ring disciplines (low kick and K1 Style).
- Foot wraps are 2,5 up to 5 m long and 5 cm wide cotton strips without sharp edges. They may be elastic.
- Foot wraps will be fastened on the upper part of kickboxer's ankle with self-adhesive cotton-base strips; maximum length 15 cm and width 2 cm (using the tape is not allowed, must be covered by the ankle support to avoid damaging during the fight).

Article 1.3.6. Elbow protection

- Elbow pads are made from soft foam-rubber material.
- Elbow pad must partly cover the forearm and upper arm with a protective non-abrasive material.
- Elbow pads are mandatory for point fighting.
- Elbow pads must not be thin (1.5 cm).

Article 1.3.7. Breast protection

- Breast protection is mandatory for all female competitors in older cadets, junior and senior categories and is mandatory in all fighting disciplines (point fighting, light contact, kick light, full contact, low kick and K1 style).
- Breast protection is made from hard plastic and can be covered with cotton material.
- Breast protection can be made in one piece and cover all the chest or in two pieces for insertion into a bra to cover each breast individually.
- It is worn under the T-shirt or under the top (bodice).

Article 1.3.8. Groin protection

- Groin protector is mandatory for all male and female competitors in all disciplines.
- Groin protector is made of hard plastic material and fully covers genital organs to protect this part of kickboxer's body from any injury.
- The groin protector can be made as a cup for covering genitals, or for covering the entire abdomen.
- Kickboxers must wear the groin protection under their pants or shorts.

Article 1.3.9. Shin guards

- Shin guards are made from hard foam-rubber material.
- There are two types of shin guards:
  - For tatami disciplines and full contact, a shin guard must cover the shinbone from under the knee to the top of the foot.
  - For low kick and K1 Style shin guards with instep must cover the shin and instep
  - Shin guards must be fixed on the calf with two (2) self-adhesive strips.
- No other kind of plastic tape is allowed for fixing the guard to the shin.
- Shin guards with metal, wooden or hard plastic elements are not allowed.
- In Low kick and K-1 Style sock-type shin guards is strictly prohibited.

Article 1.3.10. Foot protection with an open sole

- Foot protection is made from special synthetic foam rubber, a compact and soft material which is covered with genuine or artificial leather.
- Foot protection covers the upper part of the foot (instep), lateral and medial malleolus and heel - all in one piece - with open sole of the foot.
- They must be long enough (adequate size) to completely cover the kickboxer's feet and toes.
- The front part of the foot protection is fastened by elastic strips for the big and second toes.
- Foot protection is fastened to the feet with elastic self-adhesive strips at the back of feet, above the heel.
- Foot protection is mandatory for tatami disciplines and for full contact

Article 1.3.11. Defective and/or inappropriate equipment

- If, during the fight, the equipment ... is found not to fit properly, resulting in repeated stoppages, the kickboxer will be given two minutes to change it.
- If the equipment is changed within the two-minute period, the Referee will resume the fight with the official warning or minus point (if the official warning was given before).
- If a competitor is late entering the fighting area and appears with incorrect or faulty equipment, he does not have an additional 2 minutes to repair or replace the equipment. The total wait from the start of the timekeeping to the start of the fight may not exceed 2 minutes.
- If the time of 2 minutes is up and the equipment is not changed, the kickboxer will be disqualified and the result of the bout will be registered as WO.

Article 1.3.12. Using personal equipment according to the colour of the FOP's corner

- Competitors in the ring (ring disciplines – full contact, low kick and K-1 Style) are required to wear personal protective equipment in red or blue, depending on the colour of the ring corner.
- Mandatory equipment in the colour of the ring corner in the ring is a helmet and kickboxing gloves.
- It is recommended that shin guards in the colour of the ring corner (in accordance with the helmet and gloves) are also worn in the low kick and K-1 Style disciplines.
- Competitors on the tatami (in the point fighting, light contact and kick light disciplines) are recommended (but not required) to wear personal protective equipment in the colour of the tatami side (red or blue).

TOP TEN - TROCELLEN Official Supplier

WAKO has signed an Official Supplier Contract for tatamis for the period 2020-2023 with Budoland.

The contract stipulates that Budoland – company of Top Ten - is Tatami Official Supplier's trademark for the WAKO World and Continental Championships.

At WAKO World and Continental Championships only tatami pads from the Tatami Official Supplier – Top Ten can be used:

https://www.budoland.com/en/tatami-mats-wako-944-4600

The tatami pads to be used are made by Trocellen, approved by the WAKO Technical Committee, they meet all specifications and must have the WAKO trademark in two colours, red and blue.

The organizers with whom WAKO have signed contracts for the organization of the WAKO World and Continental Championships are obliged to ensure that tatamis from the official supplier are used at the Championships.

Budoland / Top Ten can separately arrange their participation in the A, B and C Class competitions and World Cups with the local organizers – promoters of tournaments.

Under these agreements, the manufacturers' approved kickboxing protective equipment is eligible for use in the A, B and C Class tournaments as well as in the World Cups.

The equipment to be used is approved by the WAKO Technical Committee, meets all specifications and must have the WAKO trademark, and according to the WAKO Rules – in red – blue colour.

Event organizers - promoters listed on the WAKO Calendar will arrange Gold sponsors' participation in the competitions directly with WAKO Gold Sponsors.

WAKO Gold Sponsors are not required to participate and their equipment cannot be used at World and Continental Championships.

Only equipment from WAKO Platinum Sponsors - Century and Top Ten - may be used at World and Continental championships.

WAKO Platinum Sponsors can arrange their participation in the A, B and C Class competitions and World Cups with the organizers – promoters as Gold Sponsors.

Rights and obligations of WAKO Gold sponsors

The Gold Sponsor shall sponsor and support -pursuant to the terms set for the below – the following events organised by WAKO (hereinafter, the "**WAKO Gold Events**"):

All WAKO A-B-C Class tournaments and World Cup events as detailed from year to year in the WAKO Calendar available on WAKO's web site www.wakoweb.com and which in any event will be communicated by WAKO to the Gold Sponsor every year. Only the products of approved sponsors of WAKO (i.e. Platinum Sponsors and Gold Sponsors) may be used at the WAKO Gold Events as above.

WAKO undertakes that the Gold Sponsor's Products bearing their trademark shall be allowed to participate and be sold and /or promoted in any other WAKO Events organised under the sanctioning of WAKO for the term of duration of Agreement. It remains understood that in such WAKO Gold Events (other than the WAKO World Championships / Continental Championships Events reserved to the Platinum Sponsors), other companies (or sponsors, suppliers) will be allowed to participate and their products may be sold, promoted and / or used by the athletes provided that they first obtain WAKO sanction and approval of WAKO as an official Gold Sponsor. Exclusive rights are in fact granted to the Platinum Sponsors at the World and Continental Championship Events.

It is understood by the Gold Sponsor that at the relevant WAKO Gold Events, it is the responsibility of the Gold Sponsor to negotiate the terms and (economic) conditions with the WAKO A/B/C Class promoter(s) and World Cup promoter(s) directly as appropriate to get specific rights (i.e. sales booth, other direct sponsorship nationally).

The Gold Sponsor shall have also the exclusive right (alongside one other Gold / Platinum Sponsor) to have its merchandise used at WAKO Events (A/B/C class and World Cups) which include WAKO Trademark and/or WAKO logo (according to terms to be agreed with WAKO), provided that such products are previously approved by WAKO Technical Director. WAKO may have other sponsors at the WAKO Gold Events representing products not related to Kickboxing or the field of martial arts in general, without this entailing any breach of the present Agreement.

The Gold Sponsor will have access to all WAKO National markets without hindrance.
